

Paras Shah, M. D., M. S., FABPMR

Physician

Paras Shah, M. D., M. S., is an interventional orthopaedics and regenerative medicine specialist. He is board certified in Physical Medicine and Rehabilitation and fellowship -trained in Interventional Pain Management. As a part of the medical team at Regenerative Orthopedic Institute, Dr. Shah is excited to practice regenerative medicine . His focus is on correct diagnosis allowing appropriate treatment, with the goal of optimizing function that will enhance his patients' quality of life.

Dr. Shah finished his residency training in physical medicine and rehabilitation and his fellowship in interventional pain medicine from the Albert Einstein College of Medicine in New York. During his residency and fellowship, Dr. Shah received comprehensive training and extensive exposure to musculoskeletal medicine, diagnostic ultrasound, spine and sports medicine, fluoroscopic guided spinal injections as well as ultrasound guided peripheral joints injections.

Prior to joining our medical team at Regenerative Orthopaedic Institute, Dr. Shah has worked as a physiatrist and interventional pain physician at Labette Health, Assistant Professor at Pennsylvania State University and University of Michigan and as an Ophthalmologist in Mumbai, India.

In his free time, Dr. Shah enjoys playing golf, cricket, tennis, listening to music and traveling with family.
